*We extract all the juice.  
Maximum squeezing efficiency.*

## Efficient **Vertical** System

We know how important it is for you to gain the maximum return on your investment, and how crucial it is to avoid any form of waste.

The EVS squeezing system (Efficient Vertical System) incorporated into our machines means they are high yield and extract the maximum possible amount of juice from the fruit, with not a drop wasted.

# ● Z14

*The most advanced technology for continuous service.*

Ref. Z14

- **A juicing system** that is unique in the world. The fruit is cut in half and squeezed without the juice coming into contact with the peel, thus avoiding it being tainted with any oil or bitterness. Quality juice with 100% natural taste.
- **Automatic citrus juicer.** Oranges, lemons, limes, mandarins and grapefruit.
- **Fruit size:** Small and large Ø 45 to 90 mm. (1.77"-3.54").
  - Medium Ø 55-75 mm. (2.16"-2.95") cup kit.

*See what you are drinking,  
enjoy the taste.*

## Open View System

All Zummo machines feature our exclusive Open View system, in other words, you will always be able to see the fruit that is going to be squeezed as well as the squeezing process.

*Squeeze different  
citrus fruit.*

## Multicitric System

Oranges, limes, lemons, grapefruit, mandarins and pomegranates... Our machines can squeeze all rounded citrus of all sizes. Try making delicious juice from a combination of different citrus. Check the different types of fruit our models can squeeze.

# ● Z40

*Pure speed.*

- **A juicing system** that is unique in the world. The fruit is cut in half and squeezed without the juice coming into contact with the peel, thus avoiding it being tainted with any oil or bitterness. Quality juice with 100% natural taste.
- **Automatic citrus juicer. Oranges, lemons, mandarins, grapefruit, pomegranates.**
- **Fruit size: Ø 53-100 mm. (2.1"-3.9")**
  - Medium Ø 53-76 mm. (2.1"-3") cup kit.
- **Quick and easy to clean.** It only takes 6/7 minutes to disassemble, clean and reassemble.
- The body of the juicer is made of **stainless steel**.
- Automatic feed. Top-mounted rotating basket holds up to **20 Kg. (44 lbs.) fruit**. When full it makes the machine attractive to look at.
- Latest generation **digital programmer and fruit counter**. Provides information on the machine's operating status (via a digital display panel).
- **Self-cleaning filter.**
- **Drip tray and grille.**
- 15 l. (4 gal.) stainless steel waste peel-collection bins.
- **Standby system** (energy saving).

*Check out optional items in the accessories catalogue.*
