

# THE SOURCE OF THE BEST **JUICE**

Once you have tasted  
the best juice, nothing is  
ever the same again.

**Vending** Range

# ● ZV25

## *Natural juice at any time*

The small-size vending solution that enables customers to enjoy natural chilled juice squeezed to order at any time.

Recommended for supermarkets and other retail outlets, hospitals, halls of residence, shopping centres, universities, airports, sports centres and also for small and medium-size companies.

# ● ZV25

- Z14 juicer (Pic.03), mounted on a tray with runners to make it easy to handle and remove.
- Compact, easily removable chiller unit (Pic.02) for easy replacement or repair.
- The full juicing process can be watched (Pic.01) through an LED-illuminated window.
- Juice collection compartment (Pic.04) with automatic blocking of the window upon removal of the glass.
- Operating status information display (Pic.05):
  - Alphanumeric system plus illuminated icons.
  - 8 language options.
  - Serving counter.
  - Price of serving can be programmed in.
  - Orange counter.
  - Rolling tally of accumulated credit.
  - Information on nature of any malfunction.
- Electronic temperature control. Cooling system keeps interior cold including waste peel, avoiding attracting insects.
- Automatic self-clean programme set to run after certain number of juices delivered or time elapsed. The machine is fitted with 2 water tanks that enable it to run the self-cleaning programme automatically. Connector for water to be drawn direct from mains drinking water supply.
- Easy to clean. Fully removable parts.
- Programmable "rielda" lock.
- Rear buffers ensure correct ventilation of cooling system.
- Back-lit front panel (led lights).
- Separate payment systems and programming zones, both in watertight compartments.

*We carry out research in innovation and development so we can create the best vending machines.*

Our vending machines are the only ones on the market that show the consumer the entire squeezing process.

*See what you are about to drink and enjoy the taste.*

## System **Open View**

All Zummo machines are OpenView, in other words, you can see the fruit that is about to be squeezed at all times, as well as the entire squeezing process.

*We extract all the juice. Maximum squeezing efficiency.*

## Efficient **Vertical** System

We know how important it is for businesses to gain the optimum return on their investment, and so, how crucial it is that they avoid any waste.

The EVS system (Efficient Vertical System) incorporated into our machines means that our machines are high yield and extract the maximum possible amount of juice from the fruit, with not a drop wasted.

*Squeeze all types of citrus.*

## System **Multicitric**

Oranges, limes, lemons, grapefruit, mandarins and pomegranates...Our machines will squeeze all round citrus fruit of all sizes. Try making delicious juices from a mix of fruits. Check out which fruits our different machines can squeeze.
